

Raise my Grade

First off you want to check and make sure that all missing work has been turned in. Sometimes you forget that you didn't turn in your homework from two months ago...it happens. So start there and turn in all of those missing assignments from synergy.

Now, what you need to do is make sure that you are attending all of the Zoom meetings! It helps especially to attend the mentoring sessions. If you show me that you are trying, then you will be compensated for your time and effort.

Honestly, it is really hard to fail this class if you complete and turn in all of your work on time. Students with D's and F's almost always have missing assignments!

Do NOT get yourself stuck in a hole that you cannot climb out of. Get help sooner and always monitor your grades weekly (Monday is a great day to check your grades!)
